The e-Courts scheme aims ICT enable ment of the lower courts across the country in their functioning. The project envisages development of hardware, software and networking to assist district and taluka courts in streaming their day to day functioning. Key functions such as case filling, allocation, registration, case workflow, orders and judgements will be IT-enabled. Cause lists, Case status, orders, judgements will be available to litigants, advocates, and general public. The project aims to build a national grid of key judicial information available 24X7 in a reliable and secure manner.
