

How to join in Ubuntu

1. Click on the invitation link and click on cancel

2. Click on 'Watch on web instead'

The screenshot shows a Microsoft Teams interface. At the top left, the text "Microsoft Teams" is visible. A white dialog box is open, asking "Open xdg-open?" and stating "https://teams.microsoft.com wants to open this application." Below the text are two buttons: "Cancel" and "Open xdg-open". Below the dialog box is a grid of four avatars representing participants in a meeting. Below the avatars, the text "Watch the live event in Microsoft Teams" is displayed. At the bottom left, there is red text that says "Click here to open it on your browser". A red arrow points from this text to a button labeled "Watch on the web instead". Below this button, there is a link that says "Already have the Teams app? Launch it now".

Microsoft Teams

Open xdg-open?
https://teams.microsoft.com wants to open this application.

Cancel Open xdg-open

Watch the live event in Microsoft Teams

Click here to open it on your browser → Watch on the web instead

Already have the Teams app? [Launch it now](#)

3. Click on, 'Join anonymously'
